# Sales general conditions

The supply of material is carried out in accordance with the general conditions detailed below, which are considered accepted by the client at the time of placing the order.

**Supply and transport**
Postage will be calculated until destination in national territory, consult. In case of not covering postage, if we do not have prior notification from you, the postage will be automatically charged to the invoice.
Before taking charge of the shipment, the buyer must ensure that the packages are in perfect condition. In case of detecting any breakage or damage, you must demand its opening in the presence of the agent of the transport company.

**Prices**
Gatell reserves the right to change prices without prior notice. Updated technical data on the web. The billing of the materials will be made according to the current rate at the time of supply. All taxes, excise duties and charges that could affect the sale of our products will be borne by the buyer.

**Payment conditions**
They will be specified in writing in each case by both parties. In case of delay in payment compliance, Gatell reserves the right to charge the customer for the expenses caused by the non-payment, as well as the legal interest accrued from the scheduled date of payment.

**Claims and returns**
Any return that has not been previously agreed between Gatell and the customer will not be accepted. In case of agreement, the following conditions must be met:
- Returns will not be accepted after 15 days from the date of the delivery note.
- Damaged material, poorly preserved, with signs of having been on site, etc. will not be accepted.
- All return costs will be borne by the customer.
- Returns of special products that have been manufactured specifically for the client will not be accepted.

**Guarantee**
Gatell guarantees the quality of the materials it sells, forcing itself to replace those that present manufacturing defects, once they have been recognized as their own by our Technical Manager.

**Ownership of the merchandise**
The merchandise shipped will remain the property of Gatell until the customer has paid the full amount of the shipment.

**Jurisdiction**
Any issue that may arise due to breach of this document, in the first instance, and with the prior agreement of the affected parties, will go to the arbitration court. In 2nd instance, the jurisdiction and competence of the courts and tribunals of the city of Barcelona will be used, expressly renouncing the jurisdiction of their domicile.

Catalog free distribution fee.

## Since 1942

In 1942, GATELL began its journey, with the will to offer solutions to specific problems in the sector of the distribution of drinking and sanitary water.

The constant research and subsequent design of new products has specialized GATELL as a leading company in the hydraulic sector, incorporating new elements into our daily work, in constant collaboration with Public Entities, Companies and Professionals.

GATELL... The will to be better.

## Leaders in anti-fraud systems

Together with the main companies in the country, developed systems to prevent fraud and manipulation of different parts of the drinking water networks.

Together with you, we would like to continue with this project and continue innovating products in this area.

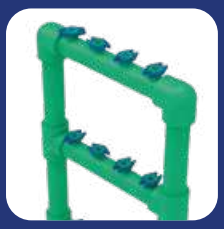
# NEW PRODUCTS 2026

**BRASS WITH COMPOSITE PLATE**
Brass valves **with plate in reinforced composite with bushings inserted in stainless steel**, eliminate oxidation and corrosion galvanic properties of the plates traditional galvanized.

**PÁG. 20**

**WE REPRESENT NTG IN SPAIN**
In all its accessories NTG uses two 100% virgin raw materials: **BOREALIS BORSAFE and INEOS ELTEX**. It has different certifications international in the environment of water, gas, mining and industry.

**PÁG.**



**PREMIUM MANIFOLD WITH MOBILE PLATE**
We promote our model Premium PPR Manifolds, solderless on the necks and completely plastic, **now with the option of mobile plates to add ease in the assembly**.

**COMPOSITE BLIND PLATE**
Our composite blind plate **reinforced with inserted bushings in stainless steel** it's designed to cover and seal the nozzles that are not in use in water meters manifolds.

**PÁG. 14**

**MULTITOOL Y MINITOOL**
Allows you to make precise adjustments and secure both in the hoses water meters, as in valve screws with plate. **Designed to be used in hard-to-reach places.**

**PÁG. 13**

**MOBILE MALE THREAD FLEXIBLE HOSE**
Makes connections easier by allowing **free movements in both extremes**, providing practicality unique. Furthermore, its **exceptional flexibility** enables adaptation to various configurations.

**PÁG. 13**

**COMPACT MANHOLE BOX WITH ASSEMBLY**
PP body and GRP lid, equipped with brass valve assembly. Its design offers insulation total thermal, resistance B125 and is 100% waterproof, **ideal for installations with radio water meters.**

**PÁG. 39**

**MANIFOLD CONECTION KIT**
Each kit is delivered with the **unions threaded sealed with hemp and teflon coated**, tested one by one to ensure the absence of leaks. Adaptable to different types networks and configurations.

**PÁG. 16**

## Check valve for flanging PN6-10

NEW!
With return spring
of the clapper

| Code | Dimensions | Price € |
|---|---|---|
| 04VRETB200 | 2" | On Request |
| 04VRETB212 | 2 1/2" | 115,57 |
| 04VRETB300 | 3" | 115,57 |

It has a spring for the recoil of the clapper.

By having a single gate it presents less friction and pressure loss.

Its opening hole 40% larger than the Double disc supports greater flow.

## Threaded clapper check valve
